

# THE CAT

## NEW MASTERPIECE GLIDE & DEFINE LIQUID EYELINER

Inspired by the sultry sirens of yesteryear, the Cat is perfect for anyone with almond eyes, or eyes that are close together, as it naturally pulls them out and throws them forward.

Start the line in the centre of the lid above the top lashes. Keep the line fine, drawing up into the outer corner of your eye.

Draw a line from the outer corner of the lower lashes, meeting your original line in a point. This has an amazing effect of opening out the eyes.

Add mascara to the top lashes – add to the bottom lashes too for more definition.

### Application tip:

Our Black/Brown or Smoke shades work perfectly for this look as they give a lovely accent and sparkle to the eyes.
