

THE SWALLOW

NEW MASTERPIECE GLIDE & DEFINE LIQUID EYELINER

If you've got big eyes, this ultra modern look will suit you perfectly. It has a harder finish with a fine wing on each side, and gives you the ultimate in glamour.

The eye is lined with Glide & Define eyeliner on both the top and bottom lids and the flick is extended and drawn slightly lower. This is a bold make-up look which works well with naturally glossy skin and pretty, soft lips.

To ensure eyes are not hiding behind the liner, use a soft black kohl pencil inside the rim of your eyes. Lastly, apply lashings of mascara on the top and bottom lashes.

Application tip:

Line the lower lashes first so that you don't smudge your top liner when you look up to apply the lower line.
